

Oracle Analytics Cloud (OAC) Bootcamp

Our Oracle Analytics Cloud (OAC) Bootcamp runs for four days and covers everything you need to know in order to manage your Oracle cloud BI platform. It assumes no prior knowledge up-front.

Background

The course starts by introducing OAC including editions and key components. We move on to the OAC architecture including security and the migration process. During day 2, the focus is the data and repository layer, where we show you how to create a data model from a Data Mart/Data Warehouse source. The final two days cover basic reporting, dashboards and analysis including how to use Oracle Data Visualization. The course is modular, so you can select which days are applicable to your role.

Who Should Attend: Developers, Consultants, Project Managers, Tech Leads, DBAs

Previous knowledge: None Required

Duration: 4 Days

Agenda

Day 1

- Overview
- Introduction
- Product Demo
- Dataset Overview
- Agenda
- Cloud Systems Admin
- Provisioning
- Security
- Migration
- Data Sources
- Connecting and Integrating
- Deployment and environments

Rittman Mead is a global, enterprise-focused, data and analytics company. We use our skill, experience and know-how to work with organisations across the world to use their public and private data for substantial and sustained competitive advantage. We deliver innovative and cost-effective solutions based on our core values of thought leadership, hard work and honesty

Day 2

- RPD & Data Modelling
- Data Modeller
- Building a Data Model
- Hierarchies
- Variables
- Securing a Data Model

Day 3

- Creating Analyses
 - Dashboard Overview
 - Web Catalog
 - Creating Analyses using Answers
 - Create Reusable Calculations
 - Global Variables
 - Analysis Prompts
 - Filtering Data
 - Hierarchical Columns
 - Choosing the right Visualisation
 - Conditional Formatting
-
- Creating Dashboards
 - Create Dashboards
 - Dashboard Prompts
 - Dashboards & Analyses Interaction
 - Presentation Variables

Day 4

- Data Visualisation
- Oracle Data Visualization (DV)
- BI Ask
- Data Mashups
- Data Flows
- Machine Learning

Benefits

- Our training is delivered by senior consultants with years of experience in the field
- We have been delivering OBIEE training since 10g, so our training materials are the product of 1,000s of hours experience
- We use live OAC instances for labs, giving delegates the most realistic training experience
